1 Introduction

The Government of India had decided that to measure and monitor India's performance on various social, economic and other parameters through internationally recognized Global Indices. The goal of this exercise are to use these Indices as tools for self-improvements and bring about reforms in the policies and processes of Government agencies and bring about reforms in the policies and processes of Government agencies and financial institutions while creating a conducive ecosystem for foreign and domestic investment flow.

Goals

- Driving reforms at the National and State level by ranking of States
- Promoting cooperative and competitive federalism
- Enhancing citizen service delivery, ease of living and ease of doing business

About the dashboard:

The dashboard is created to support the Government's decision to leverage the monitoring mechanism of select global indices to drive reforms and growth. The dashboard allows for monitoring of the parameters as per official data as well as the data source used by the publishing agency. The dashboard also allows for monitoring of performance of states and it also inculcates healthy competition among States/UTs through their scoring and ranking on these Indices and Reform Actions.

2 Intended Audience

This User Help Guide is exclusively developed for the use of nodal administrator. It explains the process of managing master data definition, index definition, users, progress data entry, reform, approval request, formula, generating report, viewing user manuals, contact support, and support ticket. Care is taken to explain each function in detail!

3 Login

Enter GI Dashboard URL in the web browser address bar and press Enter key.

Login screen will be displayed.

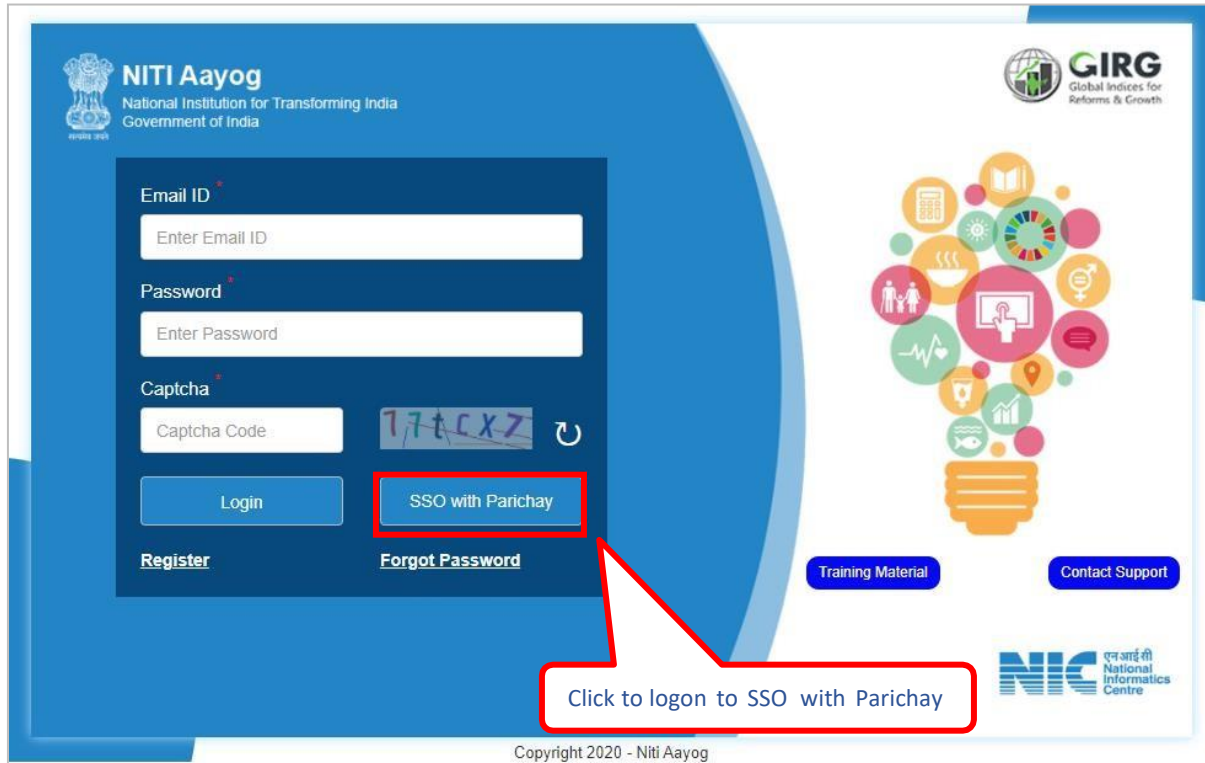

Figure 3-1

Enter following details:

- Email ID: Enter email ID
- Password: Enter password
- CAPTCHA: Enter CAPTCHA code as displayed
- Click [Login](#) button to login to the GI Dashboard
- Click [Forgot Password?](#) link in case of forgotten password. Reset password link will be forwarded to your registered email id
- If you are a Non-LDAP user, you need to register through Registration page. Click [Register](#) link on Login screen. User Registration page will be displayed. Fill the registration form and submit. After successful submission and authentication, you can login using registered email id as Non-LDAP user.

- Click [Training Material](#) to view training material
- Click [Contact Support](#) to view contact support

For **Registration Through Parichay**, below process will have to be followed.

The screenshot shows the NITI Aayog login interface. The main form contains the following elements:

- Email ID**: Input field with placeholder "Enter Email ID".
- Password**: Input field with placeholder "Enter Password".
- Captcha**: Input field with placeholder "Captcha Code" and a refresh button.
- Login**: Button.
- SSO with Parichay**: Button, highlighted with a red box.
- Register**: Link.
- Forgot Password**: Link.

Additional page elements include the NITI Aayog logo, GIRG logo, a lightbulb icon with various symbols, and buttons for "Training Material" and "Contact Support". The NIC logo is at the bottom right. Copyright 2020 - Niti Aayog is at the bottom center.

- Click [SSO with Parichay](#) to logon to SSO with Parichay
- Provide NIC email id (.nic/.gov) and password in the below screen.

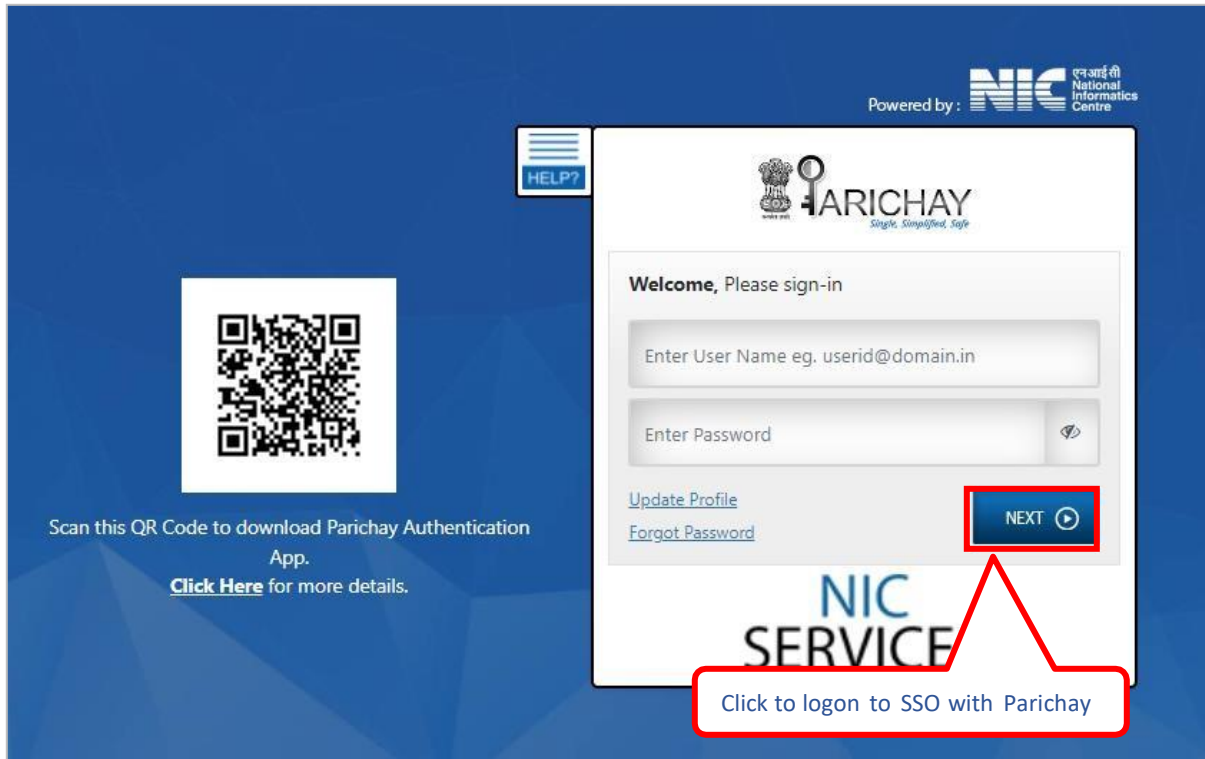

Figure 3-2

Enter following details:

- Enter Username
- Password: Enter password
- CAPTCHA: Enter CAPTCHA code as displayed
- Click  button to logon with SSO Parichay

 - Click **Add Formula** to add formula
- Last Re-calculated Date
- Action
 - Click  (edit) icon to edit the record
 - Click  (view) icon to view the record
 - Click  (re-calculate) icon to re-calculate formula

11.3.1.1 Add Formula

Click [Add Formula](#) to define formula at Parameter Level. Formula screen will be displayed.

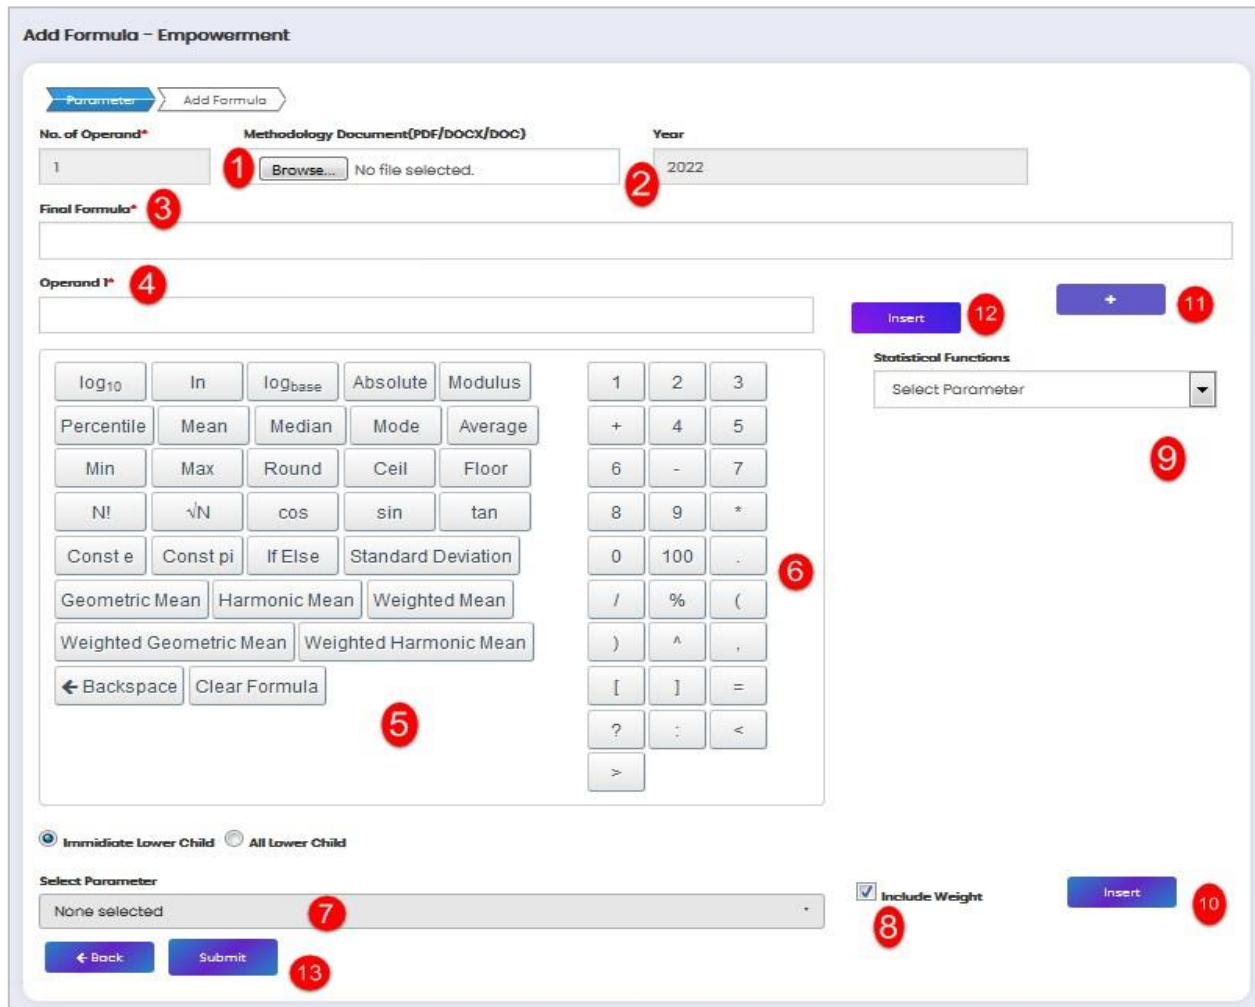

Figure 11-4

Enter following details:

- (1) **Methodology Document:** Browse, you can upload Methodology Document designed by Publishing Agency, to enable the Nodal Administrators to refer, before defining formula.
- (2) **Year:** Year for which you are defining the formula in disabled mode.
- (3) **Final Formula Box:** where defined Formula appears.
- (4) **Operand:** Call the parameters (or other index tree nodes like themes etc. along with functions to define formula. You can add more than one Operand by selecting

and click

to display the operand in Final formula box

- (5) **Functions:** You can use these functions to define the formula. On mouse hover, the function displays the syntax for the function as shown below:

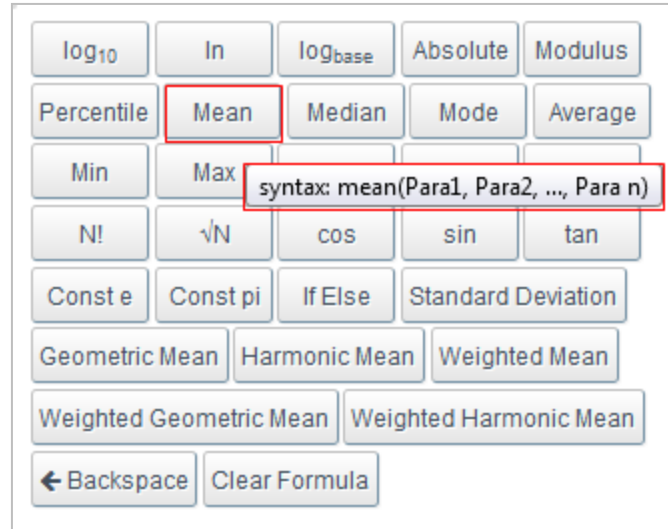

Figure 11-5

- (6) **Number Pad and Arithmetic Operations:** Allows you to select the operations and numbers.
- (7) **Select Intermediate Child or All Lower Child:** You can select the parameter, either single or multiple parameters. Prior to that select **Immediate Lower Child** OR **All Lower Child**.

Immediate Lower Child All Lower Child

Immediate lower child will show all the immediate Childs for selection. All lower child will show all the lower child till the lowest level coming under that particular node.

- (8) If included **Weight then the** weighted value (Value * Weight) as per the weight defined for that par/sub-par in the Index definition will be considered.
- (9) **Statistical Functions:** Statistical Functions displayed on right side, can be used to derive statistical equations on the selected lowest child. This will take values for all states mapped to the parameter and entered by data entry user at the lowest parameter level.
- (10) To insert defined Operand into Final Formula Box
- (11) To insert more Operands
- (12) To insert the parameter(s) selected from dropdown list into Operand.

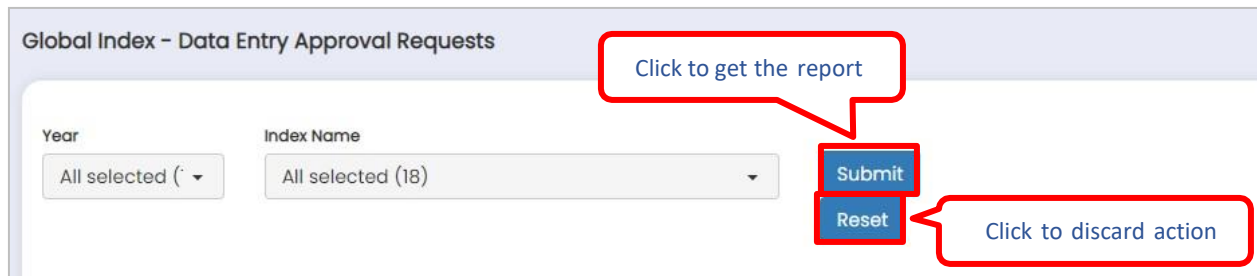

(13) Click  to submit Formula
