1 Introduction

The Government of India had decided that to measure and monitor India's performance on various social, economic and other parameters through internationally recognized Global Indices. The goal of this exercise are to use these Indices as tools for self-improvements and bring about reforms in the policies and processes of Government agencies and bring about reforms in the policies and processes of Government agencies and financial institutions while creating a conducive ecosystem for foreign and domestic investment flow.

Goals

- Driving reforms at the National and State level by ranking of States
- Promoting cooperative and competitive federalism
- Enhancing citizen service delivery, ease of living and ease of doing business

About the dashboard:

The dashboard is created to support the Government's decision to leverage the monitoring mechanism of select global indices to drive reforms and growth. The dashboard allows for monitoring of the parameters as per official data as well as the data source used by the publishing agency. The dashboard also allows for monitoring of performance of states and it also inculcates healthy competition among States/UTs through their scoring and ranking on these Indices and Reform Actions.

2 Intended Audience

This User Help Guide is exclusively developed for the use of nodal approver. It explains the process of managing India Index with nodal admin, data definition approval, freeze/unfreeze index, generating reports, viewing user manuals, contact support, and support ticket. Care is taken to explain each function in detail!
